

Connected Curriculum Menu: Summer

WOW! We have seen some incredible learning over the last few weeks. Thank you to everyone who has had a go - we hope you have had lots of fun doing it!

As we start to return to school, we have designed a project for you to enjoy over the remainder of the Summer Term. For this topic so far, you have explored **Geography, Art and Music**. You have learnt about the Wonders of the World and explored your local area to find our own Wonder of Breton.

Don't forget to share your learning with us via email so that we can give you a special shout out:

Email Miss Cunningham on: year3@redbrookhayes.staffs.sch.uk

Email Miss Foster on: year4@redbrookhayes.staffs.sch.uk

Summer Term Challenge:

Using your knowledge so far, we would love for you to design your own **Wonder of Redbrook Hayes**. This wonder can represent what you love about Redbrook Hayes, what Redbrook Hayes means to you or the values that Redbrook Hayes demonstrates.

- You need to **design your Wonder**:

Draw and label what it would look like, what size you want it to be, what it would be made of and where it would go at Redbrook Hayes.

- You need to create a **prototype**:

Make a mini version by sculpting or creating a model using any materials you like. This will show what it will look like but in a mini version.

- **What does your Wonder represent?**

Think about the different wonders you have researched - they all had a purpose or reason for being created. What does your Wonder of Redbrook Hayes represent? How does it represent that? Write a piece that would accompany your Wonder or a video explanation.
